

Invitation for Sponsoring

Over the course of the last years many developments have taken place throughout the nuclear business and the nuclear community. Some countries have enlarged the nuclear share in their power production or started a new build programme. On the other hand, some countries continue their sceptical view on nuclear energy or close nuclear plants. Furthermore, the decommissioning of retired plants and waste management is becoming more and more a subject of interest in many countries. Nevertheless, common to everyone always was and permanently is the necessity for safety in all doings and the knowledge transfer from the experts to newcomers in the nuclear business.

To share the worldwide lessons learned and the new developments in the enhancement of safety the International Association for Structural Mechanics in Reactor Technology (IASMiRT) has for a long time organised international conferences.

From 8 – 13 August 2021, the 26th International Conference on Structural Mechanics in Reactor Technology takes place in Berlin and returns to its birthplace after 50 years. We are proud that IASMiRT has given us as organising team of SMiRT 26 the confidence to organise this event, which is expected to attract around 600 participants. The preparations for such a large event provides an important opportunity for our customers and business partners to present their products, research results or range of services to visitors from all over the world.

Without the assistance of sponsors from commerce and industry a conference of this scale would not be thinkable today. Therefore, we are contacting you with the request to think about supporting the SMiRT 26 by a sponsorship. Different types of sponsorship packages are available. All sponsorship opportunities are presented in the attached brochure.

Our aim is to offer to you as a possible sponsor the ideal platform to ensure that the name of your corporation will be inseparably linked to the SMiRT 26 Conference as a whole or to individual items of the programme.

We would be very grateful if you could inform us at short notice about your principal preparedness to support the 26th SMiRT Conference as a sponsor.

We are ready to provide you with the details of our concept in a personal conversation and would be pleased to assist you with any further questions.

If you happen to be the wrong addressee in this matter, a respective note would be highly appreciated.

Yours sincerely

Dr. Jörg Aign

Chair of SMiRT 26
Managing Director TÜV NORD EnSys GmbH & Co KG

Dr. Anton Erhard

Head of Sponsorship Committee SMiRT 26
President DGZfP e.V.
